

Takeuchi

TB257FR

Huppenkothen added-value equipment

There is additional equipment that everyone wants.

You therefore get more as standard from Huppenkothen. This makes your excavator more powerful, faster and more comfortable.

Put simply - added value.

HYDRAULIK

4 hydraulic auxiliary circuits, 3 of which have proportional control

Flow rates adjustable on the display

1st circuit: 3 memories and High Flow function

2nd/4th circuit: 1 memory

1st hydraulic auxiliary circuit, with proportional control - max. 105 l/min

2nd hydraulic auxiliary circuit, with proportional control - max. 44,7 l/min

3rd hydraulic auxiliary circuit, for hydraulic

quick change plate HUPPPlate H

4th hydraulic auxiliary circuit, with proportional control - max. 44,71/min

Detend Mode - breaker line continuous operation

Auto-Tank - depressurised return flow for breaker operation

Automatic pressure relief of control circuits when quick change plate is actuated

Strong variable double - axial piston pump

Hydraulic tank venting

Pilot-opened load-holding valve on boom cylinder and arm cylinder

additional kit

Powerful

Spacious and comfortable operator cabin

Adjustable powerhouse

CAB WITH COMFORT EQUIPMENT

Comfort cab

ROPS / FOPS (Level II)

"Climatronic" temperature-controlled air-conditioning system

with quadruple air outlet system

Heating and radio

Mechanically cushioned comfort seat with neck support

HFM (HUPPIFleetManagement) - telematics system with

2 year term of use – extended for additional charge

ECO-mode and high-altitude mode for increasing efficiency, optimal engine control at altitude

Automatic idle - r.p.m. deceleration

TECHNICAL AND SAFETY EQUIPMENT

Double air filter - additional protection for the engine

Spring-loaded accumulator on parking brake

Spring-loaded accumulator on slew brake

Electric refuelling pump

 $\begin{array}{c} \textbf{Pressure accumulators for pressure relief} \ \ \text{of hydraulic circuits} \\ \end{array}$

and emergency boom lowering

Storage compartment with on-board toolkit

Acoustic overload warning device (EN474-5)

LED worklights 1x arm, 2x on cab at front, 2x on cab at rear

Socket on cab roof for rotary beacon

USB charging socket

HUPPLub

Huppenkothen central lubrication system to ensure everything runs even more smoothly

HUPPTronic

Lifting and slewing movement limiter with programmable limit areas for increased safety.

HUPPIWarranty

Extended premium warranty package with all-round protection.

HUPPIFIeetManagement

An eye on every machine at all times with fleet management. First 2 years included in purchase price.

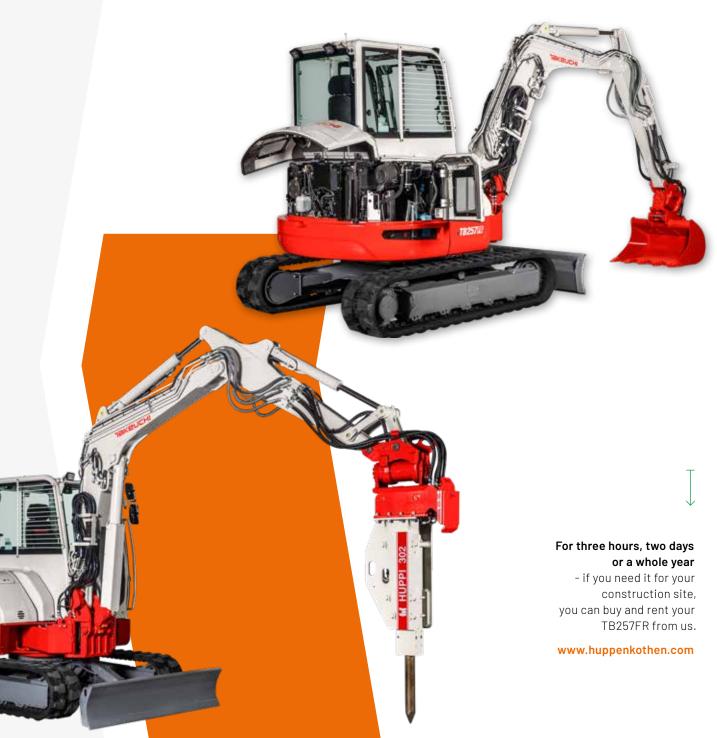

The Takeuchi mini excavator TB257FR is specifically designed for unrestricted working on very confined construction sites. The patented side-to-side (STS) offset boom makes this zero tail excavator more compact and the best alternative to a short tail excavator. The upperstructure rotates 360° nearly within the width of the track. With a surrounding diameter of just 2870 mm, the TB257FR is also ideal for working in narrow streets where space is confined.

» 1st hydraulic circuit, with proportional control with 105 l/min High Flow

» Air conditioning, heater and Bluetooth radio for optimal driver comfort

» 5 LED worklights for optimum illumination of working area

Engine KUBOTA V2403-CR-TE5B Commonrail diesel engine, turbo charger, 39.0 kW @ 2,200 rpm (ISO14369) Stage V emission level - with DPF
and DOC
Dimensions (mm) 5.395 x 2.000 x 2.575
Digging depth (mm) 3.895
Reach (mm) 6.215
360° swing radius (mm) 1.435
MAIN DIMENSIONS
Service weight*(kg) 6.160
Total width (mm) 2.000
Overall height (mm) 2.575
Transport length (mm) 5.905
Boom swing angle I / r (°) 30 / 16

*Machine weight + SWPL + PL + medium size bucket + half a tank of diesel
--

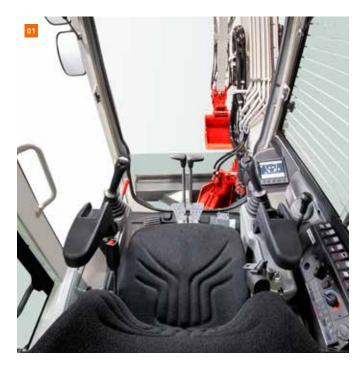

CHASSIS	HASSIS	
Tracks	rubber, steel	
Track width (mm)	400	
Ground contact (mm)	1.980	
Ground pressure (kg / cm²)	0,333	
Ground clearance (mm)	300	
Dozer blade dimensions (mm)	2.000 x 430	

WORK PEFORMANCE		
Travel speed (km / h)	4,8	
Slew speed (rpm)	9,6	
Gradeability (degrees / %)	30 / 58	
Digging force bucket (kN)	36,6	
Digging force arm (kN)	23,1	

HYDRAULIC SYSTEM	DRAULIC SYSTEM		
Hydraulic pumps	Double axial piston pump + 2 gear pumps		
Pump pressure (bar)	240 x 240 x 206 x 34		
Flow rate (I / min)	60,5 x 60,5 x 44,7 x 9,9		
Hydraulic tank (I)	52 (Tank) / 100 (total)		
Slew motor type	Axial piston motor, rigid		
Travel motor type	Axial piston motor, variable		

AUXILIARY CONTROL CIRCUITS	
1st control circuit hydraulic breaker 3 x adjustable flow rate	105,0
2 nd / 4 th control circuit Powertilt / grab (I / min) adjustable flow rate	44,7

- O1 Ergonomic, mechanically cushioned comfort seat and optimal arrangement of controls for fatigue-free working
- O2 Separate compartment for fuelling hose in the upperstructure
- 03 Additional hinged flap for optimum access to refuelling pump and fuel filler flap
- **04** Takeuchi-patented, extremely robust lateral boom offset

08 HUPPTilt R tilt-rotator with HUPPPlate H

09 HUPPTwist rotator bucket 360°

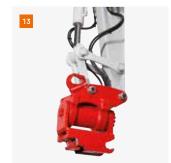

10 HUPPBreak hydraulic breaker with HUPPQuick

11 HUPPGrip universal grabber with HUPPTilt and HUPPQuick quick coupling system

12 HUPPTilt wit HUPPPlate H, digging bucket mounted as high bucket

13 HUPPTilt tilt device with HUPPPlate H

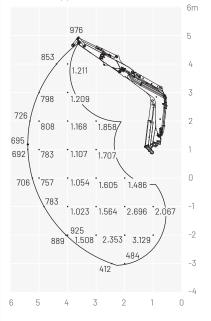

14 HUPPQuick system: Hydraulic connections are connected automatically during the quick coupling process

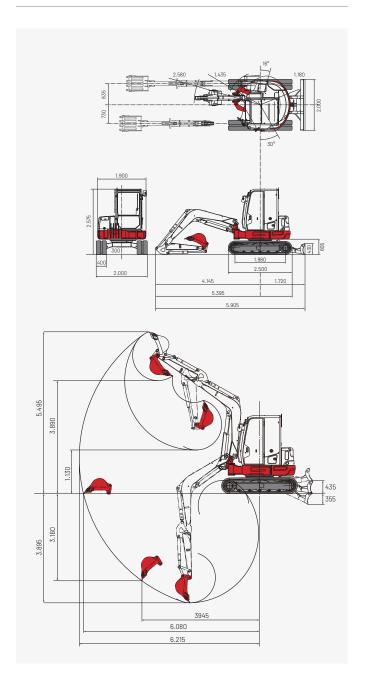

Lifting load (kg)

Forward (upper dozer blade)

The loads in the diagram are within 87 % of the hydraulic lifting load and within 75 % of the tipping load.
